10kg 300 Series Front Load Washer, Anti-Bacterial Treatment

300 Series

Black

Designed for the weekly wash, this 10kg washer helps you get more done in fewer loads. A slimline 565mm depth means it suits the space you already have, while Express 15 and an Extra Rinse option take care of everything from a single shirt to a full load of towels.

- 10kg drum in a slimline 565mm cabinet
- Express 15 washes a small load in 15 minutes, plus Add a Garment mid-cycle
- Extra Rinse for towels and bedding, without a separate wash
- 4.5 star energy and 4.5 star water ratings

Depth	**565 mm**

FEATURES & BENEFITS

Fits your washing, fits your home

Make room for the weekly wash with a 10kg washer that helps you get more done in fewer loads, while its slimline 565mm depth suits the space you already have. Between those bigger loads, keep clothes ready for the next wear with Express 15 for quick washes and Steam Refresh to freshen them up between washes.

Quick for the small stuff

For the school top, work shirt or gym gear that needs a quick wash, the Express 15 cycle takes care of small loads in just 15 minutes, using a shorter cycle and faster wash action. And if something is left behind, Add a Garment lets you pause and reopen the door to add it in.he door to add it in.

Skip the second wash

Give towels, bedding and other absorbent items the extra rinse they may need. Extra Rinse adds a second rinse stage before the cycle ends, helping to remove detergent residue for a fresher-feeling finish.

Refresh and care for what you wear

Keep lightly worn clothes and stored linens smooth and fresh with the Refresh cycle, which uses steam to help gently reduce odours and creases while using minimal water and energy. When it is time for a full wash, dedicated programmes care for wool, delicates, bedding, cottons, synthetics and mixed loads.

Set the wash around your day

Spend less time adjusting the wash around your laundry. Auto Load Sensing matches water use and cycle length to what is in the drum, Favourite saves the cycle you use most, and Delay Start lets you plan for washing to finish when it suits you

Built-in care for the washer

Laundry care starts with a washer that is cared for too. Anti-Bacteria Treatment in the door gasket helps keep the area around the seal hygienic, while Drum Clean uses hot water and a high-speed spin to help clear detergent residue.

The world's #1 home appliance brand*

Haier is the world's number one Major Appliance brand*, and has been for 17 years running. With our global network, trusted technology and local expertise, Haier is a name you can rely on. *Source Euromonitor International Limited; Consumer Appliances 2026ed, % unit share, 2025 volume sales data. Major Appliances category is the sum of dishwashers, home laundry appliances, large cooking appliances, microwaves and refrigeration appliances. Volume sales refers to sales in retail channel, builder merchants and construction channel.
