

12kg + 8kg Combi Front Load Washer Dryer

Enjoy the convenience of washing and drying in one with this 12kg + 8kg combi. Advanced Stain Treatment tackles multiple types of stains, while Auto Dose delivers the right amount of detergent. Steam Refresh with UV hygiene keeps clothes fresh between washes, and the Direct Motion Motor ensures quiet performance built to last.

- Enjoy the ease of washing and drying in one, with cycles to care for everyday loads and fabrics
- Direct Motion Motor runs quiet and smooth with low energy use, built for lasting performance.

- Advanced Stain Treatment works hard to lift a wider range of stains for a thorough clean
- Auto Dose adds the right amount of detergent every time, reducing waste and improving wash results

DIMENSIONS

Height	850 mm
Width	595 mm
Depth	678 mm

FEATURES & BENEFITS

Two-in-one convenience

Enjoy the ease of washing and drying in one appliance, designed to simplify everyday laundry. With a 12kg wash and 8kg dry capacity plus programs for common fabric types, it delivers effective cleaning and drying without the need for separate machines.

Built for trusted performance

Haier's Direct Motion Motor connects straight to the drum, with no belt required. With fewer moving parts, it runs with less vibration and noise, uses less energy, and is built to deliver reliable performance for years to come.

Advanced stain care

Advanced Stain Treatment works hard on stubborn marks, helping to lift a wider range of stains for a thorough, consistent clean.

Smart dosing made simple

No more guesswork with detergent. Auto Dose automatically measures and dispenses the right amount for each load, based on size and cycle. It helps reduce waste while delivering consistent wash results.

Steam freshness and UV hygiene

Take care of clothes between washes with cycles that freshen, smooth and sanitise. Steam Refresh helps reduce creases, Deodorise tackles everyday smells, and UV Sanitise uses light to help eliminate bacteria, leaving your garments feeling clean, cared for and ready to wear.

Essence wash

Essence Wash mixes detergent with water before spraying it onto your clothes. This helps spread detergent more evenly for a thorough, effective clean every time.

Dual spray rinse

Dual spray nozzles rinse away foam and residue from the door and gasket at the end of each cycle, helping to maintain a fresh, clean washer.
