500 Series Freestanding Dishwasher, Hygiene

500 Series

Satina

From breakfast dishes to a full day's plates and pans, 15 place settings and flexible racking make light work of the load. Eight wash programmes and Auto Wash Sensing tailor each cycle to the load. ThermoDry leaves dishes ready to put away, while intuitive capacitive touch controls make every interaction effortless.

- Generous 15 place setting capacity, easily accommodating plate sizes up to 320mm
- Auto Wash Sense program detects every load and picks the right cycle for you
- Intuitive touch controls and a refreshed, modern design
- ThermoDry draws moisture off your dishes by natural condensation, for a drier finish
- Eight wash programmes and four wash modifiers, including a Hygiene cycle

DIMENSIONS

Height	**850 - 895 mm**
Width	**597 mm**
Depth	**600 mm**

FEATURES & BENEFITS

Dry dishes, ready to put away

The best part of loading the dishes is knowing your dishwasher will finish the job. ThermoDry technology uses the heat left in the tub after the final hot rinse to efficiently channel moisture away through natural condensation, leaving dishes dry and ready to put away. For plastics, add the +Dry modifier for an enhanced drying finish, using a higher final rinse temperature. All you need to do is tap the clean, intuitive touch display.

Light work for a full load

With room for 15 place settings, a full day's dishes are taken care of in one wash. Lift the upper basket between two positions to fit plates up to 320mm below, while fold-flat lower tines open up space for pans and platters. Foldable cup racks keep mugs and smaller pieces secure. For added ease, the improved door front features easy-to-clean capacitive touch controls, angled for a clear view. Choosing a programme and starting the wash feels intuitive and effortless.

It picks the wash for you

Auto Wash Sense uses sensors to detect how dirty the dishes are early in the cycle, then adjusts the wash temperature and cycle length to match the level of soil. From lightly soiled breakfast glasses to heavily soiled roasting pans, it takes the guesswork out of choosing a programme. By tailoring each cycle this way, it uses only the water and energy needed for an efficient clean.

In a hurry? There's a cycle for that

Eight wash programmes give you a choice for the load and the time you have. The 30 Minute programme handles lightly soiled dishes when you want the clean-up done sooner. 60 Minute turns dinner dishes around, Glass protects your delicate stemware, and Eco balances time and energy to deliver a thorough clean.

Target the tricky bits

Four advanced wash modifiers give selected programmes targeted care for the items that need that extra TLC. Got baked-on food in pots and pans? Choose Intensive. Tupperware and plastic containers in the load? Add +Dry to help them come out thoroughly dry. Running a half-full machine? Half Load skips the water and time a full cycle would otherwise use. For extra reassurance, Steam adds a hot final rinse designed to sanitise dishes and help remove bacteria.

A hygienic clean for your everyday essentials

Choose the Hygiene programme, or add the Steam modifier for a high-temperature rinse that helps kill 99.99% of bacteria*. From chopping boards and lunchboxes to sippy cups, it's extra care for the everyday items your family reaches for time and again.
*Independently tested to eliminate more than 99.99% of Staphylococcus aureus and Escherichia coli using the Hygiene wash programme or Steam wash modifier.

Quietly gets on with it

Engineered for low-noise operation, this dishwasher maintains an acoustic output of 47 dBA. It keeps the kitchen feeling relaxed, so you can cook, talk, or unwind together without the wash cycle getting in the way.

SPECIFICATIONS

Capacity and loading

Accommodates round plates up to (lower basket)	**320mm**
Accommodates round plates up to (top basket)	**250mm**
Fold down cup racks	•
