7kg 300 Series Heat Pump Dryer

300 Series

Black

Designed for everyday living, this 7-star dryer helps you care for your clothes and reduce energy use. Heat Pump technology dries effectively at lower temperatures, while a built-in water tank and vent-free design mean there is no drain to plumb and no vent to cut. Choose Dark or White to match your laundry.

- Built-in water tank and no venting required, with a 590mm slimline depth
- With 59% less energy consumption than a 2-star vented dryer*
- Express 30 dries a small load in 30 minutes
- Sensor Drying with Damp, Dry and Extra Dry settings

Width	**595 mm**
Depth	**590 mm**

FEATURES & BENEFITS

7-star drying that fits your space

Keeping up with laundry is easier with a dryer that fits seamlessly into your home and into how you actually live. Make the move to heat pump drying with this compact 7-star energy-rated model: it gently dries clothes at lower temperatures, looking after the fabrics you love while using less energy. Its built-in water tank means no external vent or drain is needed, giving you more flexibility to place it where it works best in your laundry.

Dry what you need in 30

School uniform or gym gear needed soon? Express 30 combines a shorter cycle with a smaller load size to dry what you need in 30 minutes. For everything else, Time Dry lets you select a drying time that suits the load at hand.

Take the guesswork out of drying

Take the guesswork out of drying. Rather than drying for a set time, sensor drying monitors moisture in your load and stops at the level you select. Choose Damp for easier ironing, Dry for putting away, or Extra Dry for towels and other items you prefer ready to use.

Gentle care for your clothes

With 11 drying cycles, including Bedding and Shirts, it is easy to choose care that suits the fabrics and household items you use most. Heat Pump technology dries at lower temperatures to help protect fabrics and reduce wear over time, while the Sanitise dry option eliminates more than 99.99% of bacteria.* *Independently tested to eliminate greater than 99.99% of staphylococcus aureus and E. coli using the Cotton cycle + Sanitise wash option

Allergy care for peace of mind

Allergy Care combines gentle heat with a longer cycle time to help eliminate common allergens. It's designed to give you confidence that your clothes will feel as good as they look every time you wear them.

Designed around your space

Switching to heat pump drying is easy with a dryer designed to fit right into your routine. Choose White or Dark to suit your space, then place it side by side or stack it with the matching kit for a clean, coordinated look. Inside, a thoughtfully placed drum light helps you spot smaller items before you close the door, making everyday laundry easier and a lot more intuitive.

The world's #1 home appliance brand*

Haier is the world's number one Major Appliance brand*, and has been for 17 years running. With our global network, trusted technology and local expertise, Haier is a name you can rely on. *Source Euromonitor International Limited; Consumer Appliances 2026ed, % unit share, 2025 volume sales data. Major Appliances category is the sum of dishwashers, home laundry appliances, large cooking appliances, microwaves and refrigeration appliances. Volume sales refers to sales in retail channel, builder merchants and construction channel.
