574L 500 Series Quad Door Refrigerator Freezer, Water, Non-plumbed

500 Series

Black

With 574L of capacity and a slimline non-plumbed water dispenser at the door, this large household fridge includes active fresh zone for produce that stays fresh for up to twice as long, and SmartHQ™ connectivity to manage your fridge from your phone.

- 574L total capacity keeps fresh food and frozen favourites organised
- Non-plumbed slimline door water dispenser with a refillable internal tank
- Metal Fresh Tech cools fridge evenly; Active Fresh Zone keeps produce fresh for longer
- Flush doors with recessed handles sit flat against the kitchen for a seamless look
- Wi-Fi connected for remote control and helpful alerts through the SmartHQ™ app

DIMENSIONS

Height	**1790 mm**
Width	**830 mm**
Depth	**738 mm**

FEATURES & BENEFITS

Fresh finds. Always within reach

There's room for what you bring home. With 574L of capacity, fresh food sits at eye level and frozen meals are neatly stored below — everything where it should be. A slimline door dispenser keeps chilled water close at hand, while four flush doors in fingerprint-resistant black bring a clean, polished finish to your kitchen.

Cold water on tap

Top up the internal tank from inside the fridge, then pour chilled water from the slimline door dispenser whenever you need it. There's no plumbing connection required, so you can position your fridge more flexibly and keep cold water close at hand.

Energy-efficient cooling, built in

With a 5-star energy rating, it's designed to cool efficiently. The inverter compressor adjusts to the way your home changes through the day, working harder on a hot afternoon and easing back overnight to suit the rhythm of the day.

Keep food fresh for longer

The right conditions make all the difference. Metal Fresh Tech helps distribute cooling more evenly throughout the fridge, so everyday food gets more consistent cooling wherever it's stored. In the Active Fresh Zone, humidity is maintained up to 90%, helping preserve fresh produce for longer. Fresh groceries are easier to manage through the week.

Lock in flavour, fast

Super Freeze™ rapidly lowers the freezer temperature, so food freezes faster and forms smaller ice crystals to help maintain texture once thawed. Super Cool helps chill newly added groceries quickly. And with Total No Frost preventing ice build-up, the freezer stays frost-free without the need to defrost.

Shelves that make space

A 2L bottle of milk. A leftover roast still in its dish. The big things you actually buy need space that works around them, so adjustable glass shelves let you shift the layout to suit the shop, not the other way around. And with interior LED lighting, every corner is easy to see, helping keep last week's leftovers from disappearing at the back.

Connected with SmartHQ™

With Wi-Fi connectivity, you can pre-cool the fridge before a big shop, get an alert if the door's been left open, or switch modes in the SmartHQ™ app. Whether you're at home or away, you can manage your fridge around your routine.
