- 4.5 star energy rating and 4 star water rating
- Direct Motion direct drive motor technology for quiet and reliable washing

DIMENSIONS

Height	1093 mm
Width	640 mm
Depth	650 mm

FEATURES & BENEFITS

Uv Protect

UV Protect is designed to help kill bacteria using UV light. Pair UV Sanitise with the Hygiene wash cycle to kill more than 99.99% of bacteria.*

Intelligent Washing

Simple and easy, Smart Dosing automatically delivers the correct amount of laundry detergent based on your load size and wash cycle. Now with pre-mixing, detergent is diluted before entering the wash, helping to avoid residue on your clean clothes.

Considered Design

This white top loader washing machine is designed to pair with our heat pump dryers, with intuitive touch controls. The toughened glass lid has a soft-close mechanism for effortless handling and a durable finish in your laundry.

Gentle Wash Action

With a gentle pulsating wash action, pillow drum and intelligent wash algorithm, this top loader is designed to clean effectively while reducing tangling – helping to keep your clothes at their best for longer.

Smart Control

With the SmartHQ™ app and Wi-Fi connectivity, you're in control - anytime, anywhere. Start or stop your laundry cycles and get timely alerts on your smartphone once your washing is done. You can also access additional downloadable cycles as they are released.

Specialised Wash Cycles

Care for a variety of different fabric types with 12+ dedicated wash cycles including Wool, Delicate and Hygiene. And with the SmartHQ™ app you can download new wash cycles as they become available for targeted fabric care.

Attention To Detail

Clever features in our top loader washers help to ensure beautifully clean results. The spray nozzle design delivers an effective rinse, using minimal water. And a bionic filter helps to capture lint and prevent it from flowing back into the wash.
