500 Series Freestanding Dishwasher, Steam

500 Series

Satina

Thoughtful design turns even a full load into one less thing to think about. With room for 15 place settings, flexible racking and a full-width cutlery tray, everything finds its place. Eight wash programmes and Auto Wash Sensing take the guesswork out of each cycle. ThermoDry and Auto Door Open Dry leave dishes ready to put away, while SmartHQ™ keeps you connected when you step away.

- Auto Door Open Dry and ThermoDry clear moisture, so dishes are ready to put away
- Quiet 44dBA brushless motor keeps clean-up in the background
- Wi-Fi connected for remote control and helpful alerts with the SmartHQ™ app
- With generous 15 place settings, 8 wash programmes and 4 modifiers
- Aquastop technology shuts off the water supply if a leak is detected

Width	**597 mm**
Depth	**600 mm**

FEATURES & BENEFITS

Thorough, targeted drying done for you

At the end of every cycle, two technologies take over: ThermoDry puts residual heat to work, drawing out excess moisture through natural condensation. Then Auto Door Open Dry lends a hand by releasing the door so steam can escape, leaving dishes ready to put away. Washing plastics? Add +Dry before the cycle for an extra drying boost. All you need to do is tap the clean, intuitive touch display.

Space for anything life throws at it

With room for fifteen place settings, a family dinner or a weekend spent hosting can be taken care of in one go. A full-width cutlery tray sits neatly above the baskets, leaving more space below. The middle basket adjusts between two heights, and the lower basket accommodates plates up to 320mm.

It picks the wash for you

Auto Wash Sense uses sensors to detect how dirty the dishes are early in the cycle, then adjusts the wash temperature and cycle length to match the level of soil. From lightly soiled breakfast glasses to heavily soiled roasting pans, it takes the guesswork out of choosing a programme. By tailoring each cycle this way, it uses only the water and energy needed for an efficient clean.

Precise wash care for the tricky bits

Eight wash programmes cover the everyday, including 30 Minute for a quick refresh and Heavy for baked-on pans. Eco balances cycle time with lower-temperature washing for a more energy-efficient clean. Four advanced modifiers add targeted care where it counts. Got baked-on food in pots and pans? Choose Intensive. Tupperware and plastic containers in the load? Add +Dry to help them come out thoroughly dry. Running a half-full machine? Half Load skips the water and time a full cycle would otherwise use. For extra reassurance, Steam adds a hot final rinse designed to sanitise dishes and help remove bacteria.

A hygienic clean for your everyday essentials

With the Hygiene programme, every stage of the wash works towards a meticulously clean result. It helps eliminate more than 99.99% of bacteria*, bringing extra care to your chopping boards, lunchboxes, sippy cups and the everyday items your family reaches for time and again. *Independently tested to eliminate more than 99.99% of Staphylococcus aureus and Escherichia coli using the Hygiene wash programme.

Reliable and quiet power, at work

A brushless motor reduces mechanical friction and vibration by cutting the number of moving parts. That engineering translates to a quieter home: 44 dBA keeps the wash cycle in the background while you cook, chat, or unwind, and still delivers a reliable, efficient wash every time.

Clean with confidence, beyond the kitchen

Protection and control, whether you're home or away. AquaStop automatically shuts off the water supply if it detects a leak, while SmartHQ™ lets you start a cycle remotely, check the time remaining and receive an alert when it's done.

SPECIFICATIONS

Capacity and loading

Accommodates round plates up to (lower basket)	**320mm**
Accommodates round plates up to (top basket)	**200mm (with cutlery tray)**
